

Leading business productivity tools and outstanding value to help your business succeed!

IBM PC 300GL, Small Business Series

Highlights

Outstanding value and performance

The IBM PC 300GL, Small Business Series offers top-performing Celeron™ and Pentium® II processors, powerful 3D graphics and an integrated modem or Ethernet adapter to meet your communications needs. Now your business can enjoy IBM quality at a great price.

Loaded with essential business tools

Many models include both Microsoft® Office Small Business Edition and Lotus® SmartSuite®, which gives you freedom to choose the productivity tools that are best for each job. All models also include RingCentral for fax management.

Superior data protection

IBM PCs help protect your most valuable commodity—your data—with SMART Reaction™ automatic backup software, Norton AntiVirus™ (OEM version),¹ and ConfigSafe®, which can quickly restore a computer back to a working configuration.

Internet connectivity

Whether you are connecting to the Internet through a network or an integrated modem, it doesn't get any easier. All models include Artisoft i.Share™, which helps you reduce the cost of Internet access by allowing networked users to share a single Internet connection. IBM Internet Connection is also included for out-of-box productivity.

Great service and quality

IBM stands behind our systems with a three-year limited warranty on parts, a one-year limited warranty on labor and a global network of technical support expertise that is unmatched in the industry. IBM and IBM Business Partners are there to support you before, during and after your purchase.

The IBM PC 300GL, Small Business Series is equipped with the performance and business tools you need to help your business succeed in today's increasingly competitive world.

- ¹ Some software may differ from its retail version (if available), and may not include user manuals or all program functionality.
- ² MHz only measures microprocessor internal clock speed, not application performance. Many factors affect application performance.
- ³ IBM PC 300GL Celeron-based systems with Intel's 440BX chipset support 66MHz front side bus processors and non-parity memory only.
- ⁴ GB equals one billion bytes when referring to hard disk drive capacity; accessible capacity may be less depending on operating environments.
- ⁵ Variable read rate. Actual playback speed will vary and is often less than the maximum possible.
- ⁶ LANClient Control Manager is graphical, server-based software available for downloading at no additional charge (Internet access fees excepted) at www.ibm.com/pc/us/desktop/lccm
- ⁷ Included with 6277 and 6287 models. Downloadable for other IBM PCs at no additional charge (Internet access fees excepted) at www.ibm.com/pc/us/desktop/uma
- ⁸ Hard copy documentation available at additional charge.
